1. Academic Enrichment:

The institution introduced postgraduate (PG) and Diploma programs, providing students with opportunities for higher education and engagement in research activities. This will enable students to specialize in their fields of interest and contribute to advancements in pharmaceutical sciences.

Outcome-based education will be facilitated, ensuring high standards of curriculum delivery. Learning outcomes will be clearly defined, aligned to measure student achievement of these outcomes.

2. Research and Development:

The institute to promote interdisciplinary research and collaborations, in line with the objectives of the National Education Policy (NEP) 2020.

Increased funding and grant opportunities provided for faculty and students to undertake research projects in advanced areas of pharmaceutical sciences. This will encourage research excellence and facilitate ground-breaking discoveries.

Research infrastructure and facilities strengthened to support advanced research methodologies and techniques. State-of-the-art equipment and resources made available to researchers, enabling them to conduct high-quality research.

Faculty and students will be encouraged to publish their research findings in reputed national and international journals

3. Community Engagement/Outreach Activities:

A dedicated community engagement cell established to identify and address healthcare needs in the local community. This cell will facilitate initiatives aimed at improving the health and well-being of the community.

Collaboration with local healthcare facilities and non-governmental organizations (NGOs) will be initiated to provide pharmaceutical services to underserved populations.

4. Human Resource Planning and Development:

Periodic training programs and workshops conducted for faculty members to enhance their teaching methodologies and research capabilities. These programs will focus on innovative teaching techniques, pedagogy, and research methodologies.

Support and resources provided to faculty members to pursue higher qualifications and professional development opportunities.

A comprehensive performance appraisal system implemented to recognize and reward faculty members for their contributions to teaching, research, and service.

5. Industry Interaction:

Closer ties with pharmaceutical industries fostered to bridge the academia-industry gap and promote industry-relevant education and research. Industry experts invited to participate in curriculum development and advisory boards.

Internship and industrial training programs developed to provide students with practical exposure and industry experience. This will enhance their employability and facilitate a smooth transition from academia to the industry.

6. Internationalization:

By deploying these activities, the institution will strengthen its academic programs, research capabilities, community engagement, human resource development, industry interaction, and internationalization efforts. This comprehensive approach will contribute to the institution's growth, excellence, and its ability to address emerging challenges in the field of pharmaceutical sciences.
