

## **Strategic Plan 2022-23 to 2026-27**

### **VISION**

“To be a college of Excellence providing holistic academic standards in Pharmacy”

### **MISSION**

- Promote excellent standards of education to economically, educationally, and socially weaker section of society especially from rural areas.
- Provide quality education of international standards to students and help them to become Pharmacist of higher caliber while upholding ethics and human values.
- Develop, promote, and nurture research activities in pharmaceutical sciences and translating into health care.

Considering the vision and mission of the institution, the strategic plan is designed to prioritize learner-centric teaching techniques, practical-based learning, problem-solving-based learning, and skill development, while also promoting self-development among both students and faculty members. The following key strategies are incorporated into the plan.

- Establish a dedicated community engagement cell to identify and address healthcare needs of the local community.
- Organize regular health camps, awareness campaigns, and counselling sessions to promote health and well-being in the community.
- Strengthen mentorship programs to guide and support early-career faculty members.
- Conduct periodic training programs and workshops for faculty members to enhance their teaching methodologies and research capabilities.
- Develop internship and industrial training programs to provide students with practical exposure and industry experience.

Almalta Tq. Ausa Dist. Latur - 413 520, Maharashtra, India

Approved by PCI New Delhi, DTE, Mumbai & Affiliated to SRTMU, Nanded & MSBTE, Mumbai.

- Seek accreditation and recognition from international accrediting bodies to enhance the institution's global and national reputation and credibility.
- Increase funding and grant opportunities for faculty and students to undertake research projects in cutting-edge areas of pharmaceutical sciences.
- Promote entrepreneurship among students by encouraging them to develop innovative solutions for community healthcare challenges.
- Encouragement towards new startup programs and events.
- Organize regular industry-academia interface sessions, guest lectures, and seminars to facilitate knowledge sharing and networking opportunities.
- Facilitate international conferences, symposiums, and workshops to foster global academic and research collaborations.
- Establish a dedicated research center within the institute to promote interdisciplinary research and collaborations to meet NEP 2020
- Foster partnerships with pharmaceutical industries and research organizations to facilitate collaborative research projects and technology transfer.
- Establish partnerships with renowned universities and research institutions to facilitate faculty exchange programs and collaborative research opportunities.
- Foster closer ties with pharmaceutical industries to bridge the academia-industry gap and promote industry-relevant education and research.
- Collaborate with industry partners to design and implement skill development programs aligned with industry requirements.
- Encourage faculty and students to publish their research findings in reputed national and international journals, with a target of doubling the number of research publications by 2025-26.
- Establish technology transfer and commercialization mechanisms to promote the conversion of research outcomes into tangible products and services.
- Develop strategic partnerships and collaborations with international universities and research institutions for joint research projects, faculty exchange programs, and student mobility initiatives.
