

## **POLICY ON ENVIRONMENT AND ENERGY USAGE**

Shivlingeshwar College of Pharmacy is renowned for providing high-quality technical education to pharmacy students, aiming to produce professionals who are both technically competent and socially responsible. In line with our commitment to the environment and energy issues, the college has formulated a comprehensive policy on Environment and Energy Usage. This policy serves to affirm our institution's dedication to addressing environmental concerns and continuously improving our environmental activities across academic and administrative departments.

Recognizing that ecological sustainability is an integral part of social responsibility, Shivlingeshwar College of Pharmacy embraces an eco-friendly approach in all aspects, from implementation to student training. We prioritize conserving raw materials, energy, and water, while also focusing on minimizing CO<sub>2</sub> emissions and effectively managing waste.

The Environment and Energy Policy encompasses all sectors of the institution and applies to all stakeholders and activities carried out by the college. By implementing this policy, we aim to enhance efficiency, raise environmental awareness, and fulfill our responsibilities to conserve natural resources and limit their usage.

The key objectives of our policy include:

- Creating awareness among students about the importance of conserving natural resources and fostering sustainable environments for national prosperity.
- Adopting an ethical and environment-friendly approach in all institutional activities to preserve the natural environment.

# SHIVLINGESHWAR COLLEGE OF PHARMACY

Almalia Tq. Ausa Dist. Latur - 413 520, Maharashtra, India  
Approved by PCI New Delhi, DTE, Mumbai & Affiliated to SRTMU, Nanded & MSBTE, Mumbai.

- Developing futuristic technologies and engineering solutions that promote optimal environmental and energy sustainability.
- Cultivating a society with an attitude of conservation and harmony with nature.
- Our policies include the offering of approved courses such as B. Pharm, Pharm D, D. Pharm, M. Pharm (Pharmaceutics, Pharmaceutical Chemistry), Pharm D (PB). These courses incorporate environmental and sustainability factors into the curriculum, ensuring that students are aware of their surrounding environment and equipped to contribute to a better future.

To achieve our environmental and energy objectives, we have established a range of policies and measures, including:

- Assessing our energy usage and measuring its environmental impact.
- Reducing local air pollution emissions through the use of environment-friendly vehicles, public transportation, and pedestrian-friendly infrastructure.
- Minimizing energy consumption and maximizing natural ventilation and energy substitution.
- Installing photovoltaic solar panels for alternate energy generation and utilizing LED bulbs throughout the campus for energy conservation.
- Implementing systematic waste management mechanisms.
- Maintaining rainwater harvesting units.
- Undertaking tree plantation drives.
- Continuously improving our energy consumption through additional measures.
- Ensuring the availability of necessary resources to achieve our objectives.
- Monitoring and responding to emerging environmental and energy issues.

Almala Tq. Ausa Dist. Latur - 413 520, Maharashtra, India  
Approved by PCI New Delhi, DTE, Mumbai & Affiliated to SRTMU, Nanded & MSBTE, Mumbai.

- Enhancing the environmental knowledge and skills of our faculty members and students to improve our own environmental performance.
- Providing information and training opportunities on energy-saving measures.
- Encouraging faculty members and students to engage in initiatives that contribute to environmental protection.
- Training faculty members and students to become "Go Green Specialists" and partnering in annual tree planting initiatives.

We will communicate this policy to our students and faculty members through internal channels and make it accessible to all stakeholders via the institutional website. The Environment and Energy Policy, along with its objectives and targets, will be regularly reviewed under the guidance of the Principal of the college.
